

Serializing your Drug ePedigree Requirements.

- ePedigree Connector™ is an easy to use tool designed for tracking of RFID/2D barcode labeled units, cases and pallets as well as automatic label printing and application, including RFID/2D barcode labels.
- SaaS (Software as a Service) or Software Ownership models.
- touch screen capabilities and intuitive menus allow for easy reprinting of missing, bad, non-readable tags or labels with minimal employee training.
- ePedigree Connector™ can be modified to interface with existing production systems for data retrieval and reporting.
- handheld mobile computers can be employed to identify damaged RFID/2D tags, to allow reprint of RFID/2D tags.
- production run and shipment transaction reporting using ePedigree Connector™ indicating production and shipment status.

PRIMARY MARKING SYSTEMS INCORPORATED

Business Solution

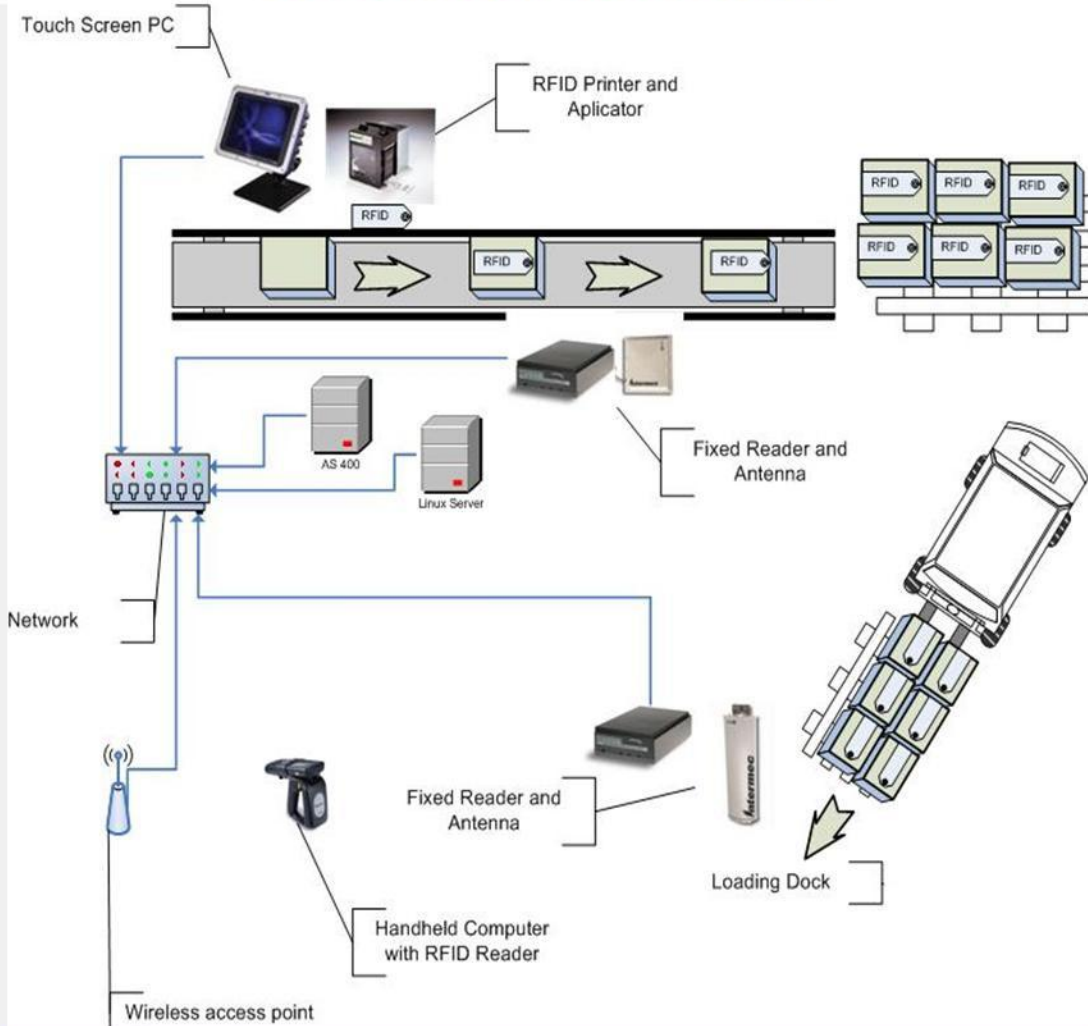

Since 1997, Primary Marking Systems, Inc. has been a Value Added Reseller (VAR) of data collection and labeling systems. With years of experience in ADC, RFID, bar code labeling, software development and system integration, Primary Marking Systems, Inc. continues to enhance customers with the latest in technology innovations. The PMSI sales and technical staff continue to find the right technology for our customers to solve their problems and make their enterprises more profitable. Our technical and service staff includes engineers and technicians with years of experience.
